

# Children's and Neonates

The Nottingham Children's Hospital is part of Nottingham University Hospitals NHS Trust. The wards and departments are based all under one roof at the Queen's Medical Centre.

## About us

We provide care for children between the ages of 0-18 years old. With 116 beds, we care for around 40,000 children each year from Nottinghamshire and beyond treating a full range of conditions, including:

- Nephrourology
- Organ transplantation
- Cancer services
- Neurology and neurosurgical
- Clef lip and Palate
- Orthopaedic
- Gastroenterology
- Critical care (including a retrieval service)
- Day surgery
- Children's emergency
- Neonates

We offer a band 5 rotation program across all of our areas. We also have specialist training programs for those wanting to work in PICU.

For more information about NCH please contact one of our recruitment team
